

CHAPTER 22

Hindsight is always 20/20

In hindsight, I now know very well of what the civilian hospital staff was warning me! *All of the aforetyped illustrates how VA self-privatizes; it is not a ‘right wing’ conspiracy or Donald Trump or Koch brothers or Concerned Vets of America coup at all; simply bureaucratic self-sabotage in toto. Every Vet that defects to private sector fully or in part or those who never enter VA system at all equals privatization. VA privatization works very well!!! Ask over 92% of all US veterans that use it instead of VA!* White Elephant, Dark Horse pseudo-voucher programs like VetChoice and Mission Acts are smoke screens hiding that, which only adds more money to VA's 400 billion dollar misspent annual budget without any benefit to Veterans. I cannot understand US congress in throwing more good after bad except that those chiseling bastards are on the take, too! America is a kakistocratic country: the worst of the worst ruling the very worst – the American sheeple too cowardly to self-govern and self-defend. *Only fifty-cents of every five budget dollars actually goes to help veterans;* the rest benefit people who never served and/or never wore a uniform who grow fat from congressional filled taxpayer pork troughs rewarding VSO's, politicians, bureaucrats, AFGE federal unions, a civil service welfare system and corruption at all levels. An interesting comment triangulated to me through a ward senior staff member while I was hospitalized at Dallas Regional in 2018, “most of the money coming into here never makes it to the veterans...” Very telling, do not you think? *Think of what 400 billion dollars a year could do for veterans getting real help in the private sector! Think of all the jobs it would create in doing that!! Think of the economic growth, and other benefits to the US Veterans, economy and private healthcare industry that is currently being wasted on these socialist birds! What a novel idea: return the stolen loot to those who were robbed by socialist lootership to benefit the whole country...Talk about a win/win ROI, ‘return of investment,’ to America! That would be a nice down payment towards really making America great for the first time ever. Even Wall Street would applaud that one!!* Moreover, charitable organizations and such outside of VA milking Vets as income sources are very faddish and profitable, too. *With so much help, why are Veterans by the hundreds of thousands to millions literally suffering and dying, many in outright protest by public suicide, from lack of it?* Only America and VA could sink so low in sewage filth profiteering from veteran suffering and suicide epidemic. Should US Veterans ever get the true care we need, aforementioned government and special interest gravy trains will derail proper. **Only American greed could figure out how to profit from our suicidal**

suffering and call it patriotism. In America believing the noble lies of patriotic loyalty, sacrifice, and martyrdom is for suckers. A broke Vet is a bum same as any other; patriotism walks and cash talks, which is epitome of fraudulent patriotism and broken promises. Try paying for anything in America with patriotism and the recipient will call a cop and have s/he veteran arrested for robbery! Only veterans seem stupid enough think their sacrifices are noble and good...denial is an odd mental defense system used to avoid the truth that we were employed as useful idiots & suckers by a mother of all sluts: Amerika, her govt and sheeple.

CHAPTER 23

VA murdering veterans to make Amerika great again.

~OR~

**Suicide is painless but is not a pointless protest,
it is sign of a very sick, diseased Nation.**

Suicide is not cowardly; COWARDLY is a disgraceful American nation, its people and Nazi institutions like VA that abuse, mistreat, and betray veterans so badly that s/he chooses to escape the pain by ending their life. 100 US veterans successfully suicide every day protesting their maltreatment by VA and USA Socialist society written in veteran blood. Only America and VA can sink so low in sewer filth profiteering from veteran suffering and suicide.

Veteran and active duty Military suicide epidemic is summed up as follows

2012: On a warm summer afternoon in Champion, [Ohio,] Michael Ecker, a 25-year-old **highly honored and decorated** Iraq War Veteran, called out to his father from a leafy spot in their backyard. Then, as the two stood just steps apart, **Michael saluted**, raised a gun to his head, pulled the trigger [and **put a bullet through his brain.**]

~

Richard Cory circa 1897, By Edwin Arlington Robinson

Whenever Richard Cory went down town,

We people on the pavement looked at him:

[saluted]

*He was a gentleman from sole to crown,
decorated*

[highly honored and

Clean favored, and imperially slim.

[25-year-old youth]

And he was always quietly arrayed,

And he was always **human** when he talked;

But still he fluttered pulses when he said,

[saluted]

“Good-morning,” and he glittered when he walked.

[highly honored and

decorated

And he was rich—yes, richer than a king—

And admirably schooled in every grace:

*In fine, we thought that he was everything
decorated*

[highly honored and

*To make us wish that we were in his place.
decorated*

[highly honored and

So on we worked, and waited for the light,
And went without the meat, and cursed the bread;
And Richard Cory, **one calm summer night**,
Went home and **put a bullet through his head.**

The poem made into music lyric is very clear:

The miracle of death takes away this pain; the miracle of death sets me free again.

Suicide is painless; it causes many changes that I can take or leave when I please.

This game of life is pointless to play; I plan to lose it anyway, the final hand I soon will lay; freeing me from this hell in clay; suicide is painless, it causes many changes, that I can take or leave when I please.

Ad nauseam, any questions? When VA, Washington, and US public understand the aforewritten – **to remove profiteering, self-interest and politics out of human resources and well-being** – they will comprehend Veteran suicide and the pain driving one to end his her life. **When living hurts, desperation to end the pain is not an ‘if,’ but ‘when’ doing so is successful.** Without **real** help, that success is most certain. Every successful suicide in America whether veteran or other screams this country is a failure of biblical proportions substantiating 90 years of US socialism is a 100% failure and time to scrap it for better days of capitalism that rewards hard work and penalizes sloth.

Washington rewards VA for every Veteran suicide by throwing it more money to ‘fix the problem.’ In this profitable racket, with every tragic death, VA cries alligator tears all the way to their offshore Swiss bank accounts and has no incentive to fix a moneymaker like that! Their ‘attempts’ are only window dressing, lip service, and snake oil for plausible denial and public ham dramatics. Money for suicide prevention and treatment goes unspent on veterans to misappropriate into general revenue where it is used on ‘other’ reasons such as political pork, paying off congress and lavish employee benefits.

VA is 100% responsible for all veteran suicides on its campuses, aka the parking lot and clinic suicides. 24 veterans self-murdered during an 18-month span between 2017-2019 all on VA property protesting lack of care from Amerika and VA. Nothing new at all! 100 veterans do so every day nationwide, while this sick country keeps its head buried in sands of denial thinking that willful, plausible, ignorance and denial will dismiss the bloodshed on their hands. Nope. Such excuses did not cut it at the Nuremberg Nazi trials and will not for Nazi America.

The single reason for veteran suicide epidemic is VA’s total lack of understanding to the point of criminal, willful stupidity totally on its part. Secretary Wilkie before being thrown out of office by US Socialists to his credit said, “VA is not even on first flight when it comes to understanding veteran suicide...’ With all due respect Mr. Wilkie, those village idiots you hire as therapists are still in the Neanderthal age wearing hairy butts and armpits, grunting and throwing rocks, sticks and ape turds at each other!!! Those people are nuttier than a bag full of squirrel turds!! You obviously are reading a script; I underwent an induced suicide terror session in a Ft. Worth clinic back room and just barely

lived to write about it. That explains without a doubt why so many vets have successfully suicided on VA property and 100 a day still do so from lack of help from VA and USA. Another very common cause of suicide is irresponsible medical prescribers drugging vets with neurotoxins that have *known*, gravely serious, 'black box,' warnings about negative side effects that promote suicidal ideation into actual acts of self-destruction. Not controlling these VA loose cannons is deadly! When I complained about serious drug side effects, which were listed in the patient literature that came with VA medication, the doctor looked at me like I was growing daisies out of my ears; Ms. MD, completely-clueless to the hazards of what she prescribed said in a **weasel statement**, 'all drugs have side effects...' and refused to change the medication. After a failed suicide attempt driven by the medication's psychotic side effects, I finally went '**non-compliant**' and stopped taking the damned pills. When she minimized my complaint, I vociferously protested *is suicide serious enough side effect to get your attention*, Ms. MD!? Only then did she reluctantly make a change to something much worse and placed a 'DO NOT TREAT' flag on my file for insubordination. I finally went totally non-compliant out of self-preservation! ***Non-compliant and 'crazy' or mentally ill*** is what they label, 'name call a veteran along with' Gaslighting, playing with your head using convenient memory to mentally project and intimidate any Vet who does not stay in his or her place or when disobeying a practitioner's wrongheaded orders, argues or challenges those white coated pompous ass 'gods and goddesses' in any way. That ruse also justifies not treating patient medical issues, flagging veteran account with '**DO NOT TREAT**' or worse - to justify punishment, blame, and to dismiss a Vet as an '**identified problem patient**.' You would not believe the arrogance of those scapegoating, pompous Ass, Nazi-bullies!! If one is not crazy before entering that chaotic asylum, s/he becomes so or dead shortly thereafter. Miscommunication and unreliability were top problems for me when dealing with troublesome clinic staff. One crazy-making scheme is making, changing or canceling scheduled medical appointments without notifying a patient, especially when setting s/he up as a 'no show problem patient.' The point is to discredit veteran integrity and to punish him for 'rocking the boat.' The message is we are in charge do not complain and stay in **your place or else.** **That whole North Texas VAMC system is a bitch-shit, matriarchal romper room, full of racist, misandrist, females perpetually going on 4 years old.** When a patient misses an unknown appointment s/he is placed on a disciplinary no-show list. Moreover, showing up at a clinic for unknown canceled appointments to teach one a lesson, is clearly punitive. Lame excuses always follow their actions that any half-wit can see through. Juvenile, **intentional retaliation** and **character smear** is another tiresome VA employee harassment; however, their childishness is obvious, which is why vets who can are rebelling through self-privatization: **feet don't fail me now going out the door to private healthcare.** Those who cannot escape elsewhere, suicide to end their pain

while screaming their message to an indifferent Socialist government medical monopoly that cannot hear their agonizing shrieks!!! Only VA and America can sink so low in sewer filth profiteering from ongoing veteran suffering and daily suicides!!! VA cannot figure out why customers are giving up and abandoning their rotten system because it does not want to know, which is sending civil service employees to the unemployment line and pushing this Nazi organization closer to sunset and dissolution into the extinction bin. Absent tax subsidies of being a government monopoly, how long would private firms remain in business allowing self-defeating practices such as aforewritten? Realize, this brief is only the tiniest tip of the iceberg, which is abridged from over +350 pages of original material.

- Veterans get the worst of it in toto. A very popular VA MHC cop-out is that 'Vets do not ask us for help;' yes, we most certainly do! *Every suicide is screaming for it!! However no one hears our screams written in veteran blood often with his brains splattered all over the ceiling and walls!!!* What the agency's willful denial and fantasies refuse to see – does not exist. *That is schizophrenia, BTW!* When a troubled veteran comes to VA for suicidal help, s/he is harassed, intimidated, abused, encouraged by clinic staff to suicide, belittled, and often forcibly beat up and thrown out of the clinic or hospital! So many documented cases of this VA abuse exist it is mind-boggling!!! Yet, US Congress continues to waste taxpayer funds on this loser, dark horse, and white elephant! Easy for those birds to do with other people's resources robbed from them at gunpoint & 'bad laws.' After being terrorized & stigmatized like that, who goes anywhere for help especially at VA!? What is the point of talking when nobody listens and worse, dismisses one's issue, sidesteps and/or dumps a hurting patient into an alley trash bin? The attitude of VA providers, caseworkers, and counselors that *I have personally dealt with* is that the veteran is harassing them! They *offload the patient; saying that we do not wish to hear or know; keep your problems to you; do not rain on my parade, it is not my job, do not rock the boat Veteran.* VA's latest con is their 'Suicide Crisis Helpless - line.' Once there, if anyone actually answers a call is a shaky, ill-trained, non-professional person also looking to dump liability of a troubled veteran. Mere hint or perception of a firearm sets off red alert alarms 'dangerous, armed veteran!' If the call center misperceives or misunderstands the veteran, which is very common and there is a 99% chance that will happen, she reports him as a an 'armed, dangerous veteran,' which ends VA call center vendor onus while shifting it to civil police authority. A drugged, out of his mind, troubled person calling for help often does not realize how s/he comes across. *The last thing a troubled person on the edge seeking help expects is a keystone cop swat team swarming*

and storming their house like a terrorist nest in Beirut. That does so much unnecessary deadly harm in what amounts to Veterans Affairs clearing out an ant infestation with a bulldozer. That is government run VA healthcare. It is the veteran seeking help that meets the worst of it. S/he is terrorized into never seeking help again or killed by an over reactive swat team eliminating a VA mistake, listing the kill as another 'terrorist' threat instead of another veteran murder and presenting the whole VA caused crime to the public as a second amendment issue not as another VA created murder. VA, its vendor, and the police walk away clean from another 'perfect' crime, which is the whole point. Should the police dept be sued for wrongful death, taxpayers pick up the tab, again, for another government FUBAR. Until dealing with Vet suicide non-statistically, non-intellectually, non-mechanically, non-profitably to instead approach it on the human level this epidemic existing well before Korean and Vietnam Wars will only grow much worse. For you civilian cupcakes, do not get 'up' about losing out; for, as the US Socialist Police state tightens its grip ever tighter around your necks...expect this same scenario in your neighborhood and probably on your door step.

The following lyrics are apropos for this dismal America shame. VA it was written for you so pick up a copy of the song and play it while counting all that blood money received for betraying & robbing US veterans. Judas & Hitler were pikers compared to you Nazis.

| Through early morning fog I see Visions of the things to be The pains that are withheld for me I realize and I can see | Suicide is painless It brings on many changes And I can take or leave it if I please |
| That suicide is painless It brings on many changes And I can take or leave it if I please | A brave man once requested me To answer questions that are key "Is it to be or not to be?" And I replied, "Oh, why ask me?" |
| That game of life is hard to play I'm gonna lose it anyway The losing card I'll someday lay So this is all I have to say | Suicide is painless It brings on many changes And I can take or leave it if I... |
| Suicide is painless It brings on many changes And I can take or leave it if I please | Suicide is painless It brings on many changes |

The sword of time will pierce our skin
It doesn't hurt when it begins
But as it works its way on in
The pain grows stronger, watch it grin

And I can take or leave it if I please
Suicide is painless
It brings on many changes
And you can do the same thing if you please

I never understood what people are thinking when screwing over everyone else for percentages of the take, action or loot only to forfeit everything even your body making the final trip out of here, in a decorated box, covered with flowers, riding in the back of a black limousine – and then spending eternity forgotten in a grave yard, rotting into dust ENCHAINED to all that baggage. If that is what life's about, what is the point of living! What matters? VA ARE READING THIS? ANSWER ME, WHY? THE END COMES DOWN THE SAME FOR EVERYONE HERE – NO EXCEPTIONS NOT EVEN YOU NAZIS!!! SO WHY?

CHAPTER 24

The saddest damage of all goes to the real Greatest American Heroes.

~OR~

The Other Victims of VA caused suicide & neglect: Families and their children suffer VA abuse the most.

After discharge in 1980, in not being able to stomach a growing body count from suicides among the men with which I served, I limited contact with them. **I did not lose a single man on duty; the losses came after discharge: SUICIDES. Do you want to know what is helplessness? I could not do a goddamned thing to stop it. That is HELPLESSNESS. VA was not there for even one of them, either.** The tragic stories went like this: did you hear about Roger? His fourth wife was leaving with their kid; she could not live with a crazy Vet any longer. He blew off his head with a 12GA shotgun loaded with magnum, double 00 buck. He pulled the trigger with his big toe still stuck in the trigger guard when authorities arrived on the scene. Their daughter came home from school and found him first... **Cause of death recorded on death certificate – gun-cleaning accident.** The

only blessing in the cover up is that his life insurance took care of his wife and kid posthumously. That girl will be an emotional wreck for life if she does not end it later in adulthood like her dad. **Where were VA and America for Roger and his family?** -Or- Inman, his wife left with the kids. He loved those kids. He went crazy ‘got drunk’ and crashed his car into a concrete bridge. Authorities say he hit it at over 100 mph, and they had to scoop what was left of him out of the wreckage. **Police ruled it a drunken driving accident.** Both men left paid life insurance to care for their wives and kids; both loved their families that along with VA & Amerika abandoned them during their hour of greatest need. Why is it that US lame-mass media and Feminazis never mention the majority of men who **do take care of** their families from the grave even when abandoned by them as in these two aforementioned cases? The blessing in mislabeling them to hide this country’s shame as ‘other causes’ instead of suicides is that insurance paid when otherwise it would not for suicides. **However, they do count in the suicide epidemic total tally even though VA refuses to count them as such.**

Furthermore, where were VA and America for Roger, Inman and their families? Want more!? **Often a Vet's last hope and anchor to living is his or her family, spouse and kids. The Vet has no idea why s/he acts so crazy but knows something is wrong; so does the family. The VA and other institutions tasked and getting well paid to help us do not or cannot. Out of fear for their jobs they refuse to admit it!** **Civilians are just as clueless as VA, mostly. When a spouse has had enough, files for divorce and leaves a troubled veteran that loss is the last mainstay of meaning that a Vet has to live; that final betrayal is what self-destructively puts a hangman's noose around the suffering person's neck.**

What lawmakers, pontificating American elites, and especially VA refuse to understand is that a Vet’s family underpins each Vet! Losing that is the end of life for too many. I simply could not take it any longer. To save my sanity and survive, I had to break from that; with a family to provision, I had to be there for them. Moreover, I fought suicidal tendencies, too. **I left Military but it never left me. It creates social misfits then tosses us back into the social dustbin as eccentric citizens of nowhere.** Only a complete moron reasons that military can pluck a nineteen year old fresh out of high school, brainwash s/he into military culture, run them through a war meat grinder then when finished expect that person to seamlessly meld back into US society normal, healthy and hale!!! Yet that is what our ‘fearless lootership’ is doing with grave consequences to this nation.

Depression is when one loses what it means to be alive and does not fit into the world anymore. S/HE IS LITERALLY A CITIZEN OF NOWHERE! Medical treatments for that are impotently destructive, and causing more harm than good – especially those crazy VA therapists and their damned drugs. To survive, alone I had to evolve unorthodox coping strategies in a toxic environment that worked only for me. Where were America and VA during all this? Abandon, betray, deny, shame, scapegoat and delay, until we die, oh yes, parroting hypocritical

Socialist slogans such as ‘thank you for your service.’ That was before the now ex-wife and kid divorced me, too. I lost my last mooring to life, which resulted in my first failed suicide attempt to escape the pain. I barely survived that loss. VA was AWOL, of course. One never hears about families shattered by the same armed forces related problems destroying active and ex Military personnel. All I received from VA and America were denial letters, typed in triplicate with government issue carbon paper between onion skin parchment. A very common statement I hear from every Vet at VA, age spanning from young to old is: I am not married anymore. Every one of them says it with forlorn, pensiveness of deep regret, sadness, and heartfelt loss. They have a hole in the soul that never heals – ever. Words fail me to describe their sorrow differently. Wars waged so that Americans can live well off war profits; war is good business; invest someone else’s families, sons, and daughters. Everyone loves her free ride and lunch so long as it is someone else’s flesh and blood paying for them.

One never knows what he or she has until it is gone.... American cowards you will learn the brutal meaning of that when your freedoms are nothing more than a casual footnote in an ancient, archived history book that you need police state permission to even touch.

CHAPTER 25

Amerika: land of phony wannabe TV mass media

talking-headed-zeroes and other losers.

~OR~

Meet the true unsung invisible heroes that few of us ever hear about.

VA is not caring for US Vets! The many unsung heroes are invisible spouses, parents, siblings and other family members, neighbors and often complete strangers are doing the actual care taking. VA simply profiteers, grandstands, propagandizes and

plagiarizes, by stealing their credit and copious amounts of tax dollar budgets for what others actually undergo and do invisibly.

My dad was a Korean War Vet, which precursed Vietnam War; it did awful things to him. When one is fighting demons, s/he does not see anything but monsters. Not a spouse, kids, not even a self in the mirror only Devils. He did great hiding his horrors, mostly – but sometimes when the raging beast overcame him it attacked swiftly, viciously, brutally, and violently. I briefly saw it in his eyes during ‘a mood’ as we called it. Dad was not in there; something else beyond evil possessed the man. Parents tell kids that monsters do not exist. Oh yes they do. I saw and experienced them through the eyes of my dad! He never remembered his rages; I can never forget them or the ***bloody, violent, brutality...*** I know other kids in America go through the same hell and demons with their abandoned, war-broken parents who never not get any help either!!! My dad certainly did not! All he got was punished, condemned, and scapegoated for Korean War injuries not of his making. The difference between then as a child and now as an adult is that I understand why he was the way he was and why we children suffered, too: **military and War create and bring out vicious animals from otherwise gentle, civilized people.** However, as a terrified child staring into the face of the ‘god’ that created me in his likeness and image, I could never understand why the demons of his War unleashed their fury upon me...perhaps the ‘sins’ of our fathers and now mothers not of their making passed onto their children? Let us not forget the families destroyed by those sins, too. **Where were America, politicians, AFGE unions, VSO's, VA, and Vet helping agencies for Korean Vets like my dad – and their CHILDREN, AND FAMILIES – when they were salvageable?** Maybe later - came too little, too late for them and my family and the thousands of families like us. Funny how each passing generation erases such crimes until they re-manifest in descendants – the children. **Every time VA abuses a veteran that Nazi agency abuses their spouses & children the worst.** Moreover, such child abuse is just another subject Amerika pays off with lip services. One can tell much about a country in how it cares or does not for the most vulnerable of its kind: children, veterans, & old people. Amerika grades a shithole minus, minus. ***Living with a crazy Vet is tiresome; all but the strongest of women, now men, kids, and relatives can successfully do it.*** Mom was a tough woman putting up with my dad; the ex-wife did her best with me, too. I harbor no blame against that woman; the problems were too monstrous for us – alone. Maybe with the help that she and I needed...and sought from VA but did not get, we would have had a better life that might have been, which now is too little & too late. However, I have to live with my problems; she does not. **Veteran suicide has existed in US since WW1, but then as now America's national disgrace remains covered up as 'other causes' of veteran death hiding**

America's disgusting dishonor that our soldiers, their families and children are forced to carry alone. Not much has changed since the 1900's except, perhaps, better lame-mass media PR, lip service, and Socialist propaganda hiding a US national scandal of biblical proportions. Those who protested Military conscription against war learned same, as did I: we had nothing to lose in not cooperating with US society and culture that were our true enemies. Only by losing everything that since childhood I was misled to believe was worth honoring and defending did I come to realize all of it was for nothing but dust blowing over an American wasteland. I paid a life, but kept my soul, learning that humble lesson. **Humans are masters at creating dust idols and 'gods/goddesses' to worship and scapegoat for the race's frailties: humans carve their fears into idols and then believe in, demonize and worship them as 'gods.'** *I lost it all to learn nothing plus or minus nothing remains nothing.* It is all dust. *America loves her Veterans so long as we stay out of sight, mind, and are not a bother, do not cost the nation anything, while paying for the country's first class free ride and lunch tickets.*

Meet the true American heroes; you probably live next door to one or more and do not recognize s/he. **VA is among America's Queen bitch of thieves; she steals and takes credit for veteran care from among the nation's myriad, sundry, mostly invisible – true, unsung, heroes.** *Families, spouses, friends, good Samaritans, volunteers, neighbors, private medical care, state, county, municipal and private insurance, local, state and other federal medical and benefits systems such as Social Security, Medicare, Medicaid, state, county and local hospital districts, clinics – some veteran charities...too many vet charities are sham profiteers exploiting us and that is a fact – an extremely, very few religious organizations and the list goes on!! Social Security, municipal, county, state and pvt disability insurance programs pick up and pay for a lions share of the valid, veteran disability claims that the VA sham kangaroo judicial processes flatly denied outright.* To put it another way, deadbeat, freeloading VA is off-loading budgeted work and costs, taking credit, stealing and mooching off America's private, public and personal safety nets, in addition to robbing taxpayers stupid, while not doing the tasks that it claims to do, and the elected lootership in Washington DC – DC stands for does not care – are serious partners in the **dirty trick organized** crimes shifting those costs into strained personal, family, state, county and municipal budgets. **To put this another way, that company misappropriates funding while shifting a lions share of its work onto other people, institutions, and governments to pay and do, while keeping the 400 billion annual budget taxpayers pay it directly. War costs draining local municipality, county, state, personal and family budgets enriching freeloading Veteran's Affairs Dept largess exploiting the nation and her veterans.** *Remember that next time you get nicked for sales, excise, vat, income, property,*

excise, and myriad, sundry other taxes, fees, ad nauseam...think about how much that freeloading bureaucracy robs from you to care for VA and its friends instead of our veterans and their families. VA says, war is good for business but only when investing your resources, kids and families into the meat grinder feeding it. VA loves her free lunch and ride parasitically sucking on taxpayer sugar tit. **VA gets richer while the nation grows poorer. HOW SOCIALIST. VA since you persist in being a blood sucking parasite, stop killing the hosts.**
